

TylerOptix

Stick-On Bifocal Reading Lenses

Convert sunglasses into reading glasses.

Manufactured from the latest Optical Grade Silicone Technology

Features:

- **Ultra-Clear:** Super soft flexible silicon non polarized Stick-On Bifocal Lenses.
- **Uses:** Transform any non-prescription eyewear into instant readers for presbyopia.
- **Shape:** oval, half circle.
- **Quantity:** Two lenses per pack
- **Size:** Width 31mm x Height 18mm x 1.5 mm (+/-)
- **Applications:**
 - Reusable.
 - Can be cut to any shape.
 - Can be applied to the inside surface lenses of sunglasses, diving goggles and safety glasses, turning them into bifocal reading glasses.
- **Easy to Apply:** Within minutes, you can begin using your stick-on bifocals anywhere you use your non-prescription eyewear. Simply remove the lenses from the packaging, wet with cleaning solution or water, and apply the readers directly to the inside of your eyewear of choice.
- **Easy to Clean:** When fitted, just rinse off with water.
- **Easy to Clean:** When fitted, just rinse off with water.
- **Stick-On Readers for Sunglasses:** Perfect for the beach, the pool, the golf course, or any outside activity. There's no need for costly prescription sunglasses when you can transform your pair into bifocals.
- **Magnified Readers Anywhere:** Convert any eyewear into magnifiers, safety glasses, swimming, scuba, fishing, driving, workshop or cycling goggles, and more. Whether working or playing, you can have magnified optics.
- **Patented Adhesion Technology:** Our bifocal lenses stick to eyewear without adhesives and don't leave behind any residue, so you can use them over-and-over again on different glasses.
